Professional Summary

Full Stack Developer skilled in building scalable web applications using Java Spring Boot and React.js. Proficient in secure REST APIs, responsive UIs, and modern tools like JavaScript, Tailwind CSS, and Maven. Passionate about clean code, continuous learning, and leveraging AI tools to solve real-world problems.

Professional Experience

Full Stack Developer Trainee – Besant Technologies

Aug 2024 – Present

- Developed full-stack apps using Spring Boot (Java) and React (JavaScript)
- Built secure REST APIs with JWT and Spring Security
- Used Tailwind CSS, Redux Toolkit, and Vite for fast, responsive UIs
- Integrated Swagger, Postman, Redis, and Razorpay

Project Experience

Multi-Vendor E-Commerce Platform In Progress

[GitHub Repository \(Private\)](#)

Technologies: Java, Spring Boot, Spring MVC, Postman, Spring Security, React, TypeScript, Redux Toolkit, Tailwind CSS, MySQL, Redis, Maven, Vite, Razorpay, Gemini API

- Developing a fully customizable, scalable **multi-vendor e-commerce platform** independently using YouTube and AI tools
- Includes distinct dashboards for **customers, sellers, and admin** with role-based access
- Implemented **JWT authentication** and OTP-based login with **Spring Security**
- Integrated **Razorpay** for secure payment handling and real-time webhook processing
- Built with **Spring MVC** architecture separating concerns (Controller, Service, Repository)
- Used **React + TypeScript** and **Tailwind CSS** for responsive and modern UI
- Managed complex state across the app using **Redux Toolkit**
- Each seller can **customize** their store with dynamic product options and pricing
- Seller dashboard shows live **sales graph** of the current day using chart libraries
- Enhanced performance with **Redis caching** for product listings and sessions
- API documentation created with **Swagger** for smooth development and testing
- Built and managed using **Maven** with modular directory structure
- Admin can manage users, products, and view platform-wide analytics
- Implemented **Gemini AI-powered assistant** for product help and smart suggestions

Magica Shopper - E-Commerce Website

[Live Demo](#) [GitHub Repository](#)

Technologies: React, JavaScript, Vite, CSS3

- Designed a basic responsive e-commerce frontend with cart and product pages
- Used Context API for simple global state management
- Built with **Vite** for faster load and optimized build

Technical Skills

- **Core:** Java, Python(Basic), Spring Boot, React.js, JavaScript, REST API, MySQL
- **Tools:** Maven, Git, Swagger, Postman
- **Security:** JWT, Spring Security

Education

MCA – College of Engineering Bhubaneswar, 2024 | CGPA: 7.5/10

Certifications

- Java Full Stack Developer – Besant Technologies (2024)
- NPTEL: Industry 4.0, IoT, Management Information Systems

Achievements

- Top Performer in Full Stack Training Program
- Reduced development time 30% with reusable components
- 100+ GitHub commits as active open-source contributor
