

Ashish Kumar Giri

Full Stack Developer | Java | Spring Boot | React.js | 9078262605 | ashishkumargiri13@gmail.com
[linkedin.com/in/akgiri10](#) | [github.com/Ashish-1013](#) | Bengaluru, Karnataka

Professional Summary

Energetic and detail-oriented Full Stack Developer, proficient in Java Spring Boot and React.js, with hands-on experience in building robust web applications. Adept at crafting responsive UIs, designing secure RESTful APIs, and collaborating in agile teams. Eager to contribute to real-world projects, learn from industry mentors, and grow as a solution-oriented software professional.

Technical Skills

Frontend Development

- React.js (Hooks, Context API)
- JavaScript (ES6+)
- HTML5, CSS3, Bootstrap
- React Router DOM

Backend Development

- Java 8+, Spring Boot
- Spring Security, JWT
- REST API Design
- Hibernate, JPA

Tools & Databases

- MySQL, MongoDB
- Git, GitHub
- Postman, Swagger
- Maven, Gradle

Professional Experience

Full Stack Developer Trainee
Besant Technologies, Bengaluru

july 2024 – Present

- Underwent 6-month industry-driven training in Java and React-based development
- Developed scalable full stack applications with secure JWT authentication
- Practiced microservices architecture, API security, and Agile methodologies
- Collaborated in team projects, mock interviews, and peer code reviews

Project Experience

Bookstore Management System

Java | Spring Boot | MySQL | Hibernate | JWT | REST API

- Designed and implemented a robust backend using Spring Boot with MVC architecture
- Developed secure RESTful APIs with JWT-based authentication and role-based access control
- Structured services and repositories with clear separation of concerns and reusable components
- Optimized database performance through indexing, native queries, and Hibernate tuning
- Implemented global exception handling, validation, and logging for reliability and maintainability

E-Commerce Website

[GitHub Repository](#) | [Live Demo](#)

React.js | Context API | JavaScript | Vite

- Developed a single-page e-commerce frontend with product listing and cart functionality
- Designed reusable React components for product cards, filters, and cart UI
- Managed client-side state using Context API without any external APIs
- Improved app performance with lazy loading and code splitting via Vite
- Ensured smooth user experience with clean routing and mobile responsiveness

Education

Master of Computer Applications (MCA)
College of Engineering Bhubaneswar (COEB) | CGPA: 7.5/10

2023

Certifications

- Java Full Stack Developer – Besant Technologies
- NPTEL – Industry 4.0, IoT, MIS, Intellectual property

Achievements

- Recognized as Top Performer in Full Stack Training Program
- Led team in final capstone project with successful client demo
- Active contributor to open-source projects on GitHub
